In this project two (2) volunteers will work together with local youth to create activities and increase involvement. Volunteers will participate in the activities of the local youth work: they will work at youth houses and arrange fun activities for kids and youngsters: eg. events, trips, cultural activities, sports and hobby clubs. Volunteers will have an opportunity to carry out own ideas. Volunteers are also expected to produce audiovisual material that will help raise awareness of different aspects of youth work.

Accommodation, food and transportation arrangements

Volunteers live in an apartment. Volunteers will have personal rooms and shared kitchen and bathroom. Volunteers will receive food money to prepare meals for themselves.

Some of the work tasks take place within walking distance from the accommodation. A car transportation to work tasks is provided when necessary. Main services locate within walking distance. Public transportation is available to nearby cities. Mandatory costs are covered according to programme rules.

Training

Volunteers will participate in the on-arrival and mid-term trainings organised by the Finnish NA. Volunteers will have Finnish language lessons if they want. Task related support and mentoring will be provided.

Volunteer profile

We would like to receive active volunteers who are motivated to work with children and young people. Working hours will change according to tasks, so volunteers need to be flexible. We hope volunteers to have knowledge of (or at least interest in) making videos. As the tasks include working with children, an extract of the criminal records is required.
